The restaurant from [Tempe](#) offers **150** different *dishes and drinks* on [the card](#) at an average price of \$9.1. What [User](#) likes about Sacred Pi:

I would recommend Sacred Pi. The food is really good and the drink options are tasty as well. The only downfall with our reservation through OpenTable is that they didn't have our reservation, but were able to seat us anyways. My suggestion is if you make reservations through OpenTable to call the restaurant directly and confirm they received your reservation [read more](#). What [User](#) doesn't like about Sacred Pi:

this is the best pizza around! pro tipp: do not order red paprika on the torte against price; it is the same crushed red pfeffer as on the table! we were disappointed that the loyalty card, which says buy x pizzas, will get them only one stamp per table, regardless of how many pizzas are ordered. [read more](#). If eating and drinking is too boring for you, go to this sports bar for a variety of large and small snacks and meals and catch live football, tennis or Formula 1 games, and you can expect typical Italian cuisine with classics like [pizza](#) and pasta. In addition, you can order fresh **roasted grill goods**, You shouldn't miss the opportunity to try the flavorful [pizza](#), baked straight out of the oven in an traditional manner.
