What [User](#) likes about Evolution: A little difficult to find and not what we were initially expecting, but the food and service were amazing. This is quaint "private" feeling restaurant that is definitely for foodies. The tomato soup was incredible and I highly recommend it. We had a party of five and the service was impeccable. Each of the entrees were amazing as well. We will definitely be back. [read more](#). What [User](#) doesn't like about Evolution: It was too expensive for the quality of food. for salmon that didn't even taste great. The decor was strange, no one greeted us at the door, just overall not a great dinner. [read more](#). Get excited about the diverse, tasty [Mexican](#) cuisine, which is traditionally cooked with corn, beans and chilies (hot peppers), You can also unwind at the bar with a **freshly tapped beer** or other alcoholic and non-alcoholic drinks.
