The restaurant from [Centreville](#) offers [46](#) different **dishes and drinks on [the menu](#)** at an average \$11.5. What [User](#) likes about Cheogajip Chicken:

Delicious roasted chicken! We ordered half with simple and soy garlic sauce (and extra hot sauce on the side). The chicken is crispy and juicy, and the sauces are good (although I find the soya garlic sauce a tad too sweet, only personal preference). Cole Slav is normal creamy way not to complain. The employees are also very nice and attentive. [read more](#). The fresh and tasty **juices** listed on the drinks menu optimally complement the meals of the establishment, The inventive fusion of different dishes with fresh and occasionally daring products is highly valued by the visitors - a good example of Asian Fusion. Korean dishes like Kimchi, Bibimbap and Jjigae, which are typical, always find their way onto the menu and the tables of the guests, on the daily specials there are also a lot of *Asian menus*.
