What [User](#) likes about Little Pecan Bistro:

[little vegan brie](#) doesn't like about Little Pecan Bistro:

Not an overwhelming selection of vegan options nothing is marked on the online ordering site, so order in person or call to order for sure. The Asian noodle salad is vegan tho was delicious! Three stars for the menu not working on their site for nothing being marked vegan on the online ordering site. [read more](#). If you're craving some zesty South American cuisine, you've come to the right place: delightful dishes, cooked with **fish, seafood, and meat**, though corn, beans, and potatoes are also in the menu, Also, the customers of the restaurant love the extensive variety of various coffee and tea specialities that the establishment has to offer. If you decide to come for breakfast, you are offered a hearty brunch, Besides, the inventive blend of different dishes with new and partially adventurous products is appreciated by the visitors - a good case of Asian Fusion.
