looking for minimal vegan options in deadwood, we were happy to find this nice, small mexican restaurant near lead. they list vegan on their menu and know what items are vegan or how to make many vegetarian items vegan. we had fantastic vegan tacos together with ok (not great) chips and guacamole. they can also make vegan dishes. this is a fast casual restaurant with just a few interiors. overall, quite good eating. Look forward to the **diverse, tasty Mexican cuisine**, traditionally prepared with corn, beans and chilies (hot peppers), Besides, the inventive blend of different menus with new and partially adventurous ingredients is appreciated by the visitors - a beautiful case of Asian Fusion. You can also look forward to scrumptious [vegetarian](#) cuisine, Besides the tasty sandwiches, healthy salads and other snacks also make a good snack.
