Baker's never disappoints. I know what I am going to get and taco burgers will get me every time. However, the meat is getting thinner and the price a bit thicker....But they are off the few **[fast food](#)** places that offers a plant alternative for every menu item! Plus them back to 5 stars **[read more](#)**. The restaurant is accessible and can therefore also be used with a wheelchair or physiological limitations. What [User](#) doesn't like about Baker's Drive-thru:

the burgers are in order, nothing that really emphasizes it. the fries have much too much oil. They are always from the massive amount of oil gey. overall it's just okay. **[read more](#)**. If you're desiring some zesty *South American cuisine*, you've come to the right place: tasty meals, roasted with fish, seafood, and meat, though corn, beans, and potatoes are also on the menu, And of course, you should also try the delicious burgers, with sides such as fries, salads, or wedges offered. The visitors also appreciate the **versatile, fine [Mexican cuisine](#)**, whose traditional dishes are prepared with corn, beans and spicy chilies, The meals are usually prepared in the shortest time and fresh for you.
