Here you will find the [menu](#) of **Applebee's Grill** in Kearney. At the moment, there are **12** meals and drinks on the menu. Applebee's has experienced significant fluctuations in quality and service, largely attributed to post-COVID staffing challenges. While some patrons remark on friendly staff and enjoyable food, others express frustration over slow service and inconsistent meal preparation. Many diners advise allowing extra time for their meals, as delays can be lengthy even when the restaurant is not full. Despite some positive experiences at the bar, where service is described as engaging, the overall sentiment indicates a need for improvement in both food quality and staff attentiveness. Diners suggest waiting until the establishment can fully staff before returning consistently.
