Well, you could do it up to a holiday today, or just a good employee, but it was a very pleasant and fast experience. The employee who helped me was very respectful, helpful and congenial. The food didn't take long to be ready. (I will not assess food quality here. It's [fast food](#). It was also good! [read more](#). What [User](#) doesn't like about Sonic Drive-in:

2/5.00 the popcorn chicken was too hard you can tell they've been sitting up a while they didn't give nor ask did we want sauces..waiting time to get food was good one of the burgers was salty.. If you're hungry some hot South American gastronomy, you're in the right place: tasty dishes, made with fish, sea creatures, and meat, but also **corn, beans, and potatoes** are on the menu, For breakfast a [versatile brunch](#) is offered here. Typically, the burgers of this place are served as highlights along with sides like fries, leaf and cabbage salads or wedges, and you can indulge in fine American meals like **Burger or Barbecue**.
