Our first time here and was pleasantly surprised by the amount of options! For sure a sushi place. You will not find traditional meals like pepper steak or sesame chicken. Rolls were beautiful and flavorful!!! Service was exceptional. Only complaints are it was a bit on the chilly side and they need sound reducing decor... It is quite loud and everything echos. Overall I do recommend. [read more](#). As a visitor, you can use the WiFi of the restaurant at no extra cost, Depending on the weather, you can also sit outside and be served. What [Amber M](#) doesn't like about Sushi Seven:

We've ordered delivery from here before with no issue but decided to eat inside yesterday. My food was good but my husband said his salmon [sushi](#) tasted off, like ammonia. We let the waitress know and she said that she had the same complaint the day before but they didn't do anything about it. It's gonna be a long while before come here again. [read more](#).
