Woodblock is a restaurant that offers delicious food and great service, making it a popular choice among diners. However, many reviewers mentioned that the restaurant is extremely loud, making it difficult to have conversations without shouting. Despite the noise level, patrons enjoyed the unique dishes and great margaritas offered at the establishment. Some diners felt that the service was lacking during their visit, with long waits for attention from the staff. While the food received mixed reviews, with some finding it bland and boring, others enjoyed the unique small plates and veggie burger options. Overall, Woodblock seems to be a trendy spot with exceptional service and tasty food, but the loud environment may not be suitable for a romantic or intimate dining experience.
