If you load your pizza with tons of toppings, then Jerry is the place for you. You can be sure that your pizza comes with loads of meat, vegetables, or whatever you have chosen. We have a 10-inch peteroni pineapple and a 16-inch chicken bacon ranch that came to about \$35. A bit expensive, but it is worth supporting a local business. You can't go wrong with Jerry. We had a combo that had 3 dustings on the top of what I don't know, no cheese on top just dist that stuck to the roof of your mouth with every bite. Jerry never scimped on anything when he had his first place on morningside avenue. We were some of his first and always wonderful pizza. [read more](#).
