I got take out here. They have a very large section of rolls and sushi here. I got the Flying Ninja and the Dragon rolls. Both said they were spicy but I didn't taste much spice even after I dipped it in my soy sauce and wasabi mix. Overall both rolls were good with tempura shrimp inside. Like I've said there is so many options I'd like onto and try different ones. [read more](#). What [Elisa "BW" Chan](#) doesn't like about Maneki Sushi Union City:

The ramen noodle is not authentic ramen. Its texture is like instant noodle. Overall taste is worst than packaged ramen. The salad that came with the ramen and udon are not fresh. The lettuces already turned brownish color. The fish cake in the udon is not soft as usual. It is hard and chewy. Don't know how long this fish cake has been around. [read more](#). Maneki Sushi Union City from Burgoon creates for you *fine sushi* (e.g., *Maki and Te-Maki*), in addition to many additional variations, always fresh with ingredients like fish, vegetables and meat.
