The [sushi](#) was delicious and every part of ordering felt super customizable. The staff were friendly and the food was served on this robot which was super cute. Most importantly though, the food was all very reasonably priced. Definitely going here again. [read more](#). The rooms in the restaurant are wheelchair accessible and can also be used with a wheelchair or physical limitations. What [Ash Oso](#) doesn't like about Quick Sushi Santa Rosa: Need to add more rice and meat, they know damn well they don't eat a spoon of rice when they eat!!! Stop being stingy! You give more salad than rice and use the bigger spot for the salad and the smaller hole for the rice that makes no sense! [read more](#). For guests of the restaurant, the catering service is also available, and you can look forward to the delicious typical seafood cuisine. But the undisputed highlight of this establishment is the delicious Sushi such as Maki and Sashimi, On the daily specials there are also several *Asian menus*.
