I order from grubhub so, I have yet to eat in the restaurant. But I saw the place and it looked clean and welcoming to all family members. My orders have never been delivered wrong or messed up in any way. [read more](#). What [User](#) doesn't like about Victorico's Mexican Food Vancouver: We paid \$60 to get authentic Mexican food and what a huge disappointment! The meat is supposed to be beef, but that's not any beef I've had before. Not shredded, but ground something, with absolutely no seasoning on a hard shell. If you Luke mystery meat, enjoy. All I know is we threw it all away. Seriously do not recommend! [read more](#). Look forward to the **diverse, scrumptious Mexican cuisine**, traditionally prepared with corn, beans and chilies (hot peppers).
