What [User](#) likes about T O Double D's: This is one of my favorite low key spots for vegan pizza. I love the crust, toppings, and service here. The crew is fast and chill. Couple this with the quality of the pizza and it's dynamite. The only thing I would change is them updating the pop machine. It's almost always out of the good flavors but other than that I have zero complaints.

Highly recommended [read more](#). The restaurant also offers the possibility to sit outside and eat and drink in beautiful weather. What [User](#) doesn't like about T O Double D's:
