I especially loved the makgeolli, gopchang and my favorite, the bibim naengmyeon. [read more](#). As a customer, you can use the WLAN of the restaurant free of charge. What [Evelyn C](#) doesn't like about Choi's Restaurant:

We were visiting Waikiki and a friend recommended this restaurant. Special lunch, forcing everyone to order one.

Never recommend come to this restaurant for others [read more](#). Lovers of Korean cuisine are right at home here: The range includes *Kimchi*, a variety of diverse variations of Bibimbap, alongside a multitude of delicious Jjigae that enchant the taste buds, Besides, the inventive blend of different dishes with new and sometimes adventurous products is appreciated by the guests - a good case of Asian Fusion. In addition, you can order fresh **grilled meat**, This restaurant offers a catering service that allows visitors to eat the menus on-site or at the festival.
