Signed improvements. When they first opened, I was really disappointed in this place. However, they have drastically improved, a larger cooking area and more interesting and better made sandwiches as well as several tapes of well-selected and inexpensive (for the area) craft beers. It remains a nice place to get wine and/or beer, but now really deserves a visit for a sit down bite and a pint. [View all feedback](#). What [Yvonne Evans](#) doesn't like about Gilly's Craft Beer & Fine Wine:

Lack of customer service. Went in to grab some food and drinks, and no one greets you. Too busy on their phones. I guess if you are not a regular, no one cares. Really went downhill. [View all feedback](#).
